PROFESSIONAL SUMMARY

Senior Game Engineer with 13+ years building scalable multiplayer systems and high-performance game infrastructure. Architected backend services for educational gaming platforms with thousands of active users and 99.9% uptime. Deep expertise in Unity, C#, .NET Core, Node.js, and microservices architecture. Seeking remote backend gaming engineering roles with EST/PST timezone overlap availability.

TECHNICAL SKILLS

Game Development: Unity 3D, C# Scripting, Multiplayer Netcode, DOTS/ECS, Shaders (HLSL/Cg), Performance Optimization

Backend: .NET Core 8.0, ASP.NET Core, Node.js, TypeScript, Python, Django, Fastify, Express.js, RESTful APIs, WebSockets

Databases & Caching: PostgreSQL, MongoDB, Redis, Firebase Realtime Database, SQL Server

DevOps & Cloud: Docker, Kubernetes, CI/CD Pipelines, AWS, Git, GitHub Actions

Architecture: Microservices, Clean Architecture, Hexagonal Architecture, MVC, Event-Driven Systems, Real-Time Sync

PROFESSIONAL EXPERIENCE

Unity Developer (Contract)

Dardranight Studios SAS | Bogotá, Colombia | Aug 2025 – Sep 2025

- Developed immersive virtual museum tour experience showcasing Elektra brand using Unity 3D
- Implemented interactive 3D environments with optimized rendering for cross-platform deployment

Senior Game Developer & Educational Software Specialist

Fundación Capital | Bogotá, Colombia (Remote) | Aug 2021 – Nov 2025

- Led development of LISTA+ Educational App with thousands of active users across Latin America on Google Play
- Provided backend support for Rednodus, a provider-user connection platform, maintaining and optimizing C# backend services
- Architected scalable microservices backend for progress tracking, user analytics, and real-time data synchronization
- Developed robust RESTful APIs for educational content management, learning analytics, and gamification systems
- Integrated Firebase and Unity Analytics achieving 99.9% uptime with behavioral metrics optimization
- Implemented advanced gamification mechanics increasing user engagement and learning retention

Lead Mobile Game Developer

Logisticapp | Bogotá, Colombia | Jul 2018 – Nov 2020

- Led development of Parkés Colombiano, a complete turn-based multiplayer mobile game for Android/iOS

- Architected intelligent matchmaking system with Firebase authentication, real-time chat, and player rankings
- Managed and mentored team of 5 programmers using Agile/Scrum methodologies
- Delivered monetization systems, dynamic leaderboards, and player progression features

Unity Game Developer

Higuera Studio | Bogotá, Colombia | Feb 2014 – Sep 2015

- Developed technical tools and reusable gameplay systems for Unity 3D video games
- Optimized performance across multiple platforms (PC, mobile, consoles)
- Integrated social networking technologies and content sharing systems

Educational Software Developer

TORO-Labs | Bogotá, Colombia | Nov 2013 – Nov 2014

- Developed Educational Chemistry Simulator with realistic chemical reactions and 3D visualization
- Created algorithms for periodic table elements visualization, adopted by educational institutions
- Collaborated with pedagogy teams ensuring scientific accuracy and educational effectiveness

EDUCATION

Technical Degree in Systems and Programming (1,600 hours)

Centro Andino de Estudios Técnicos | Bogotá, Colombia | 2007

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Backend & Architecture (2023-2025): Clean Architecture in C# .NET, Hexagonal Architecture in C# .NET, Design Patterns in C# ASP.NET, Backend Programming in C# .NET, Fastify API Development, Node.js (37.5h comprehensive course)

Unity & Game Development (2023-2025): Unity DOTS (Code Monkey), MVC Architecture for Unity 6 & C#, Unity Shaders, Shader Graph, Unity UI Toolkit, Unit Testing for Unity, VFX for Games, Online Multiplayer (Unity + Node.js + TypeScript)

DevOps & Tools (2023-2025): Docker (deployment guide), Git + GitHub, NGINX Fundamentals, PowerShell, TypeScript

Game Design & Psychology (2025): Gamification & Motivation Psychology, The Psychology of Games, Game Design Theory & Practice

Foundational (2011-2016): MinTIC - Django/Python Web Development (2013), SENA - Unity Game Development (40h), Microsoft Virtual Academy - C++, Game Production Basics, Visual Studio Development

Complete certification documentation available upon request.

LANGUAGES

Spanish: Native

English: B1-B2 (Upper-Intermediate) – Professional technical communication and documentation

ADDITIONAL INFORMATION

Global Game Jam Participant: 2016, 2017, 2024 | Available for EST/PST timezone overlap | Remote work experience since 2021
